QUALIFICATIONS SUMMARY

DevOps / DevSecOps Engineer with over four years of enterprise experience delivering, securing and supporting Azure-based cloud environments across financial and telecom platforms. Strong background in Linux systems, scripting, CI/CD pipeline implementation, and infrastructure as code, with hands-on experience in Kubernetes, Terraform and cloud security controls. Proven ability to operate in regulated, high-availability environments, emphasizing reliability, security, automation and operational excellence. Effective collaborator experienced in supporting mission-critical systems and modern DevOps practices.

EDUCATION

GHANA COMMUNICATION TECHNOLOGY UNIVERSITY, TESANO - BSC. COMPUTER ENGINEERING

I majored in Java Technology, Software engineering and Embedded Systems.

UNIVERSITY OF GHANA, LEGON – MASTER OF COMPUTER SCIENCE

I majored in Machine Learning and Data Visualization.

WORK EXPERIENCE

DEVSECOPS ENGINEER, ADAPTIVE COMPUTER SOLUTIONS, ACCRA

2025 - PRESENT

- Built secure CI/CD pipelines with automated vulnerability scanning.
- Deployed and managed Kubernetes clusters with RBAC and network policies.
- Implemented infrastructure as code (Terraform/Helm) with security checks.
- Enforced container image scanning and security best practices.
- Configured logging, monitoring, and incident response pipelines.
- Applied cloud security controls on Azure resources.

- Hardened Oracle databases with encryption and backup strategies.

APPLICATION SUPPORT ENGINEER, NALO SOLUTIONS, ACCRA

I worked on Nalo's SMS portal, payment system.

- Configuration of Linux systems on Server.
- Server and Systems monitoring
- Feature/Service configuration to operator
- Security checks and firewall configuration on server
- Configuration of USSD to operator
- Cloud computing on AWS and Digital Ocean.
- Code migrations across environments.
- Troubleshooting of application errors and servers
- 3rd party integrations.

MAINTENANCE ENGINEER, HUAWEI TECHNOLOGIES (GH) S.A LTD, ACCRA

I worked on Vodafone Cash Ghana Expansion project (Mobile money payment system), Vodafone Cash Ghana MDF Project & Ghana Commercial Bank LTD Mobile Money Project.

- Oracle database management
- User and operational acceptance testing of USSD, WEB, API and STK applications
- Server and Systems monitoring using I2000 NMS
- Networking and storage equipment planning
- Upgrade, maintenance and troubleshooting of servers, applications, networking, Security and storage equipment (OceanStor, ATAE 2.0 & 3.0, E9000, Utimaco HSM, TaiShan200, Switch, Firewall)
- Feature/Service configuration
- 3rd party integrations.

SOFTWARE DEVELOPER, GHANA COMMUNICATION TECHNOLOGY UNIVERSITY

2019-09 - 2019-12

I was an intern working on an android application for the school. I use Git for version control, Jira for issue tracking and Jenkins for CI/CD.

- Collaborated with project manager to select ambitious, but realistic coding milestones on pre-release software project development.
- Worked on software engineering projects in an Agile work environment.
- Produced clean, validation-ready code for project needs.

ANDROID DEVELOPER, AXIONTEQ

2018-06 – 2019-09

- Working with a team on building native android applications.

CERTIFICATION

- Certified Kubernetes and Cloud Native Associate (KCNA)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Certified DevOps Engineer – Professional (2024)

COMMUNICATION

- Effective cross-team communication
- Clear technical documentation
- Collaboration and teamwork
- Stakeholder engagement
- Knowledge sharing
